Dear Officials of the FDA:

1477 '99 MAY 18 AM 1:18

Recently I became aware of a
MOU regarding the FDA Modernization Act of 1997,
Section 503A regarding pharmacy
compounding. It is my understanding
that it MOU will restrict and inhibit
my rights as a consumer of a
compounded drug.

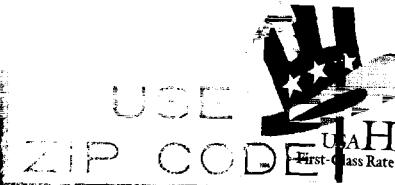

I currently use Tri Est, a
natural estrogen compound
unavailable to me in my city
or state. The service from the
Wisconsin Pharmacy is great.
I am more than satisfied with
it. And the drug is also far
superior to the synthetic drugs
I was formerly taking. I have
far fewer side effects.

I cannot understand why the
FDA, an organization designed
to protect consumers rights and health
would now seek to restrict
^{against public welfare or worse.}
These rights whose purpose are
you serving? I cannot help but
think the powerful drug industry
has a greedy hand in this. How
selfish and dangerous they
can be. Some people live now
because of compounded drugs. I
merely live better.

C2233

QBN-1565 Please perform your role as
a public servant and reject this
unnecessary and unnecessary restriction.
Yours truly
Susan Spangler
